Thinking Beyond the Classroom

The first Professional Development session at Aspireon International Finishing School (AIFS) commenced on 19th September 2026, beginning with an inspiring note from Principal Ms. Shylaja Salwan. Led by the MYP Coordinator, the session explored thinking, inquiry, learning approaches, thinking routines and Trevor MacKenzie's Question Quadrant. Through case studies and classroom scenarios, educators reflected on questioning, learner agency and meaningful teaching approaches, fostering a culture of collaboration, reflection and deeper thinking.
